

Fluid Level Sight Gauges

Sealed Back

Model 550/T-550

3 Sizes (3.25", 5" & 7" bolt centers)

Models 550 - 3", 5" & 7" body frames are of heavy aluminum alloy with flat black finish. Jam nuts and flat washers are steel; hollow mounting bolts are carbon steel, zinc plated and furnished for 1/4" thick reservoir walls. Special longer hollow bolts can be furnished on request for 7/8" & 1 1/2" thick walls. (12mm & 3/8"-24 bolts available) Stainless steel bolts available upon request.

Standard 550 and T-550 models have 70 durometer buna - N, O-Ring Seals, silicone gaskets, tempered glass window and brushed aluminum backgrounds. They are for use with petroleum products, oil-water emulsions, and glycol-water solutions where temperatures do not exceed 200°F. Where the fluids used in the sight gauge is not known, we can furnish Viton O-rings (at additional cost).

T-550PE-5 Example:

(ethylene-propylene for phosphate ester base fluids)

T-550-7 550-5 T-550-3

Model T-550 With Thermometer
(Available in 3 1/4", 5" & 7")
Note Dual Scales
Fahrenheit/Centigrade

Note* When ordering for tapped tank wall, add "SB" to part number Ex: SB-T-550-5
