

**AV-295**  
(PTO and Hoist)

**AVC-295-TGMT-13**  
(PTO, Hoist, Tailgate and opening for TARP switch)

**AV-195**  
(Hoist only)

**FEATURES AND BENEFITS AV-295 SERIES**

The original AV Series Valve provides compact, consolidated controls for P.T.O., dump pump and tailgate latch. Available as a stand-alone valve or as a console, operating a dump body has never been easier.

**FEATURES INCLUDE:**

- Controlled lowering
- Automatic disengagement of P.T.O. in lower-position
- Safety latch on P.T.O. switch to prevent accidental engagement
- LED light
- Push to connect fittings

**FEATURES AND BENEFITS AV-195**

The AV-195 is designed to address the needs of vehicles that have electric PTOs or PTO controls already installed in cab of the vehicle. Benefiting from years of dependable design, and quality manufacturing processes, the AV-195 offers metering hoist control in lower and is available with all the same console options as the AV-295. Dead-man handle and tailgate controls are also optional.

Product Model	Metering (In Lower) Hoist Control	Automatic PTO Kickout	Spring To Neutral Raise Only Dead Man Handle	8" Console	13" Console	30' Roll Of Tubing Included	Integrated Tailgate Lock	Tarp Switch Opening
