

ACCESSORIES

PROVIDING YOU WITH ALL YOUR HYDRAULIC COUPLING NEEDS

BREAK-AWAY CLAMPS

SafeWay's heavy-duty double break-away clamps allow one-hand connection when used with two-way sleeve style agricultural quick couplings. They also allow implement break-away when used with either one-way or two-way sleeve agricultural designs. Double break-away clamps are available for 3/8" and 1/2" body size agricultural quick couplings.

Bulkhead mounting rings provide for bulkhead mounting (up to 1/8" thick) of our S40 Series and S70 Series female couplers. Please refer to the accessories chart on page 33 with your specific requirement.

REPLACEMENT SEAL KITS

Both replacement seal kits and individual O-rings and back-up rings are available. Leakage between the female body half (coupling) and the male tip half (nipple) is an indication that the body O-ring needs replacement.

Field repair kits that include the body seal, a new poppet assembly and installation instructions are available for various couplings. Please refer to the accessories chart on page 33 with your specific requirement.

DUST CAPS & DUST PLUGS

Protective dust caps and dust plugs are available in rubber or metal in a variety of sizes. They should be used whenever possible to help reduce contamination of the hydraulic system and improve service life of the body half (coupling) and the mating tip half (nipple). A molded combination cap/plug is now available. Please refer to the accessories chart on page 33 with your specific requirement.

REDUCER BUSHINGS

Reducer Bushings downsize the 1/2" female pipe thread to either a 3/8" or 1/4" female pipe thread. The S4-2 reduces a 1/2" pipe thread to 1/4". The S4-3 reduces a 1/2" pipe thread to a 3/8".
